HASBRO PLAYRELIEF KITS

Hasbro and Good360 are teaming up to distribute kits comprised of several games, including classics like Chutes and Ladders, Trouble, Sorry and Scrabble, to emergency shelters temporarily housing families and children who have been displaced from their homes due to disaster. Additionally, we are deploying these kits to facilities providing child care services while communities begin to rebuild and recover.

"The goal of Hasbro's PlayRelief program is to provide a distraction, a sense of community and some fun for children who are staying in shelters after a major disaster."
