Join Child Care Aware[®] of America at one of our upcoming events! In the spring, we hold a policy and advocacy focused event in the Washington, D.C., area that is particularly relevant to those interested in meeting with lawmakers on Capitol Hill to discuss the importance of investing in early care and education. Our spring event welcomes child care experts, Child Care Resource and Referral (CCR&R) leaders and staff, child care providers, researchers, policymakers, and family advocates interested in learning more about the latest topics of research, policy, advocacy and practices in the child care and early education community.

In the fall, we hold our Leadership Institute that was created to enhance the future of the CCR&R community by developing the skills of current and future leaders in the industry. We welcome leaders who serve our nation's youngest learners to engage in dialogue about critical issues facing the future of child care and the early education community. The Institute stimulates innovative solutions that will frame our collective vision of the future. Please join us along with Child Care Resource and Referral (CCR&R) agency professionals, members of our State Network and Membership Councils, child care providers, family advocates, strategic partners, researchers, policymakers, and others in the early education field at one of our upcoming events.
